

OTRUM EVOLUTION

COMPATIBLE SCREENS

When a guest enters a hotel room, they are sure to turn on the TV, and have a browse through the available channels. The choice of TV is of course a very important part of the decision process when upgrading the interactive solution in the hotel.

OTRUM co-operates with various display vendors, including brand leaders such as Sony and Philips. These vendors offer dedicated hospitality screens purpose built to meet the needs of demanding hotel environments.

Specific hotel features include tamper proof tuner settings and mounting solutions, to avoid misuse by the guest. This is in addition to wake-up clocks, swivel stands and the connector for the bathroom speaker.

An important industry benchmark is the HD-Ready certification to future proof your investment. At the same time energy consumption becomes more and more important with today's green initiatives within the hospitality sector.

OTRUM EVOLUTION - SCREEN TYPES

COMMON FEATURES

- Integrated with OTRUM systems
- Stand alone mode
- OTRUM hospitality remote & keyboard
- Central cloning / settings / maintenance
- Integrated clock (not 40"/42")
- Bathroom speaker connector
- Compatible with Auxiliary Jack Panel

26"

SONY 26P300H

- HD-Ready
- WHD 657x506x214 with stand
- WHD 657x472x121 without stand
- VESA 200 x 100
- 90W / <1W Standby
- 10Kg (12Kg with stand)
